

Angela Chai, Senior Consultant, Authentic Business Group CIC

My passion is in supporting individuals so that they might uncover clarity, perspective and purpose. I help them to unleash their full potential by facilitating clients' transformation, first on a personal and then on a system level, so that they can act innovatively in a world of global competition and technological advancement – to prepare them to be 'future-proof'. I live with the understanding that I am a 'work in progress', and I am constantly pursuing learning and personal growth. I want my legacy to be: "Plan intentionally. Live purposefully. Love prayerfully."
